

*Welcome!*

*You are going to love our food!*

---

*A smile is a wonderful thing...*

When you smile, your brain releases feel-good hormones into your body that make you feel relaxed and happy.

Tasty food also releases feelings of extreme pleasure in the part of the brain known as the reward centre — all the more reason to smile.

At Riverstone Lodge, we want to make you smile with the food and the way we serve it.  
That is why we called our restaurant Smiles!
